

Test Plan Report

TEST PLAN DEVELOPMENT REPORT

Website: www.aramya.in

Document Version: 1.0

Date: July 25, 2026

Prepared By: QA Team

Status: Draft

1. INTRODUCTION

1.1 Purpose

This document defines the test strategy, scope, resources, and schedule for validating the functionality, performance, security, and usability of the Aramya e-commerce website (www.aramya.in). Aramya is a premium cotton ethnic wear brand for women, offering kurtas, kurta sets, bottoms, dupattas, dresses, and coordinated sets across sizes XS to 10XL.

1.2 Scope

In-Scope	Out-of-Scope
Homepage, Product Catalog, Product Detail Pages	Third-party logistics partner APIs
Cart, Checkout, Payment Gateway	Warehouse inventory management system
User Registration, Login, My Account	Physical product quality testing
Order Placement, Tracking, Returns & Exchanges	Social media integrations
Search, Filters, Sorting	Mobile native app (if any)
Mobile Responsiveness, SEO, Accessibility	

Test Plan Report

1.3 Target Audience

- QA Engineers
- Developers
- Product Managers
- Business Stakeholders

2. TEST OBJECTIVES

Table	
Objective	Success Criteria
Validate core e-commerce user journeys	100% of P1 test cases pass
Ensure payment security and data protection	Zero critical security vulnerabilities
Verify mobile responsiveness across devices	Pass on iOS Safari, Android Chrome, Desktop
Validate order lifecycle (place → track → return)	End-to-end flow completes without errors
Ensure performance under expected traffic	Page load < 3s; checkout < 5s

Test Plan Report

3. TEST ITEMS (MODULES TO BE TESTED)

3.1 Module Breakdown

Table			
#	Module	Description	Priority
1	Homepage & UI	Banners, carousel, navigation, trust badges, footer links	P1
2	Product Catalog	Category pages, collection pages, pagination	P1
3	Product Details	PDP images, size chart, fabric info, reviews, add to cart	P1
4	Cart & Checkout	Cart page, guest checkout, address, coupon application	P1
5	Payment Gateway	COD, UPI, Cards, Net Banking, Wallets, EMI	P1
6	User Account	Registration, login, profile, wishlist, saved addresses	P1
7	Order Management	Order tracking, cancellation, invoice download	P1
8	Search & Filter	Keyword search, filters (size, fabric, price, occasion)	P2
9	Returns & Exchanges	Return request, pickup, refund, exchange flow	P1
10	Mobile Responsiveness	Layout, touch targets, swipe carousel, hamburger menu	P1
11	Performance	Page load time, image optimization, API response time	P2

Test Plan Report

#	Module	Description	Priority
12	Security	SSL, SQL injection, XSS, payment data encryption	P1
13	SEO & Accessibility	Meta tags, alt text, keyboard navigation, screen readers	P2

4. TEST STRATEGY

4.1 Testing Types

Table

Type	Approach	Tools
Functional Testing	Manual + Automated (Selenium/Playwright)	Selenium, Postman
UI/UX Testing	Manual cross-browser/device	BrowserStack, Chrome DevTools
API Testing	Automated	Postman, REST Assured
Performance Testing	Load & Stress testing	JMeter, Lighthouse
Security Testing	Penetration testing + OWASP scan	OWASP ZAP, Burp Suite
Accessibility Testing	Manual + Automated (WCAG 2.1 AA)	axe DevTools, WAVE
Mobile Testing	Real devices + emulators	BrowserStack, Xcode

Test Plan Report

4.2 Test Environment

Table

Environment	URL	Purpose
Development	dev.aramya.in	Developer unit testing
Staging	staging.aramya.in	QA functional & regression testing
Pre-Production	preprod.aramya.in	UAT & performance testing
Production	www.aramya.in	Smoke testing post-deployment

4.3 Entry & Exit Criteria

Entry Criteria:

- All P1 user stories are developed and deployed to staging
- Smoke test suite passes with 100% success
- Test data is prepared and environment is stable

Exit Criteria:

- 100% of P1 test cases executed
- Zero open critical/blocker defects
- 95% of P2 test cases pass
- Performance benchmarks met
- Security scan shows no critical vulnerabilities

Test Plan Report

5. DETAILED TEST SCENARIOS

5.1 Homepage & UI (45 Test Cases)

Table			
TC ID	Scenario	Expected Result	Priority
HP-001	Verify homepage loads within 3 seconds	Page renders fully	P1
HP-002	Verify banner carousel auto-plays and supports swipe	Slides transition smoothly	P1
HP-003	Verify "Best Sellers" banner CTA navigates to collection	Redirects to /collections/best-sellers	P1
HP-004	Verify "New Arrivals" banner CTA	Redirects to /collections/new-arrivals	P1
HP-005	Verify "Tavira - Festive Edit" banner CTA	Redirects to festive collection	P1
HP-006	Verify main navigation menu items: Kurtas, Bottoms, 3 Pc Set, 2 Pc Set, Dress, Co-ord Set, Festive	All categories accessible	P1
HP-007	Verify trust badges: Free Returns (7 days), COD, Free Delivery (₹699+)	Visible and accurate	P2
HP-008	Verify "Shop by Category" section links	Kurtas, Bottoms, Dupattas pages load	P1
HP-009	Verify "Shop by Fabric" links: Soft Cotton, Linen Cotton, Handloom Cotton	Filtered results display	P2

Test Plan Report

TC ID	Scenario	Expected Result	Priority
HP-010	Verify "Shop by Occasion" links: Daily Wear, Office Wear, Occasion Wear	Filtered results display	P2
HP-011	Verify "Why People Love Us" section renders	Premium Fabrics, Perfect Fit, Latest Designs visible	P2
HP-012	Verify "Shop Florals" and "Shop Solid Kurtas" CTAs	Navigate to respective collections	P2
HP-013	Verify "Loved By Celebs" section carousel	Images load, navigation works	P2
HP-014	Verify footer links and social media icons	All links functional	P2
HP-015	Verify newsletter subscription	Success message on valid email	P2

5.2 Product Catalog (60 Test Cases)

Table			
TC ID	Scenario	Expected Result	Priority
PC-001	Navigate to Kurtas category	Product grid loads with images, prices, names	P1
PC-002	Navigate to Bottoms category	Products display correctly	P1
PC-003	Navigate to 3 Pc Set category	Products display correctly	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
PC-004	Navigate to 2 Pc Set category	Products display correctly	P1
PC-005	Navigate to Dress category	Products display correctly	P1
PC-006	Navigate to Co-ord Set category	Products display correctly	P1
PC-007	Navigate to Festive category	Products display correctly	P1
PC-008	Apply size filter (XS, S, M, L, XL, 2XL...10XL)	Results filtered correctly	P1
PC-009	Apply price filter (Low to High, High to Low)	Sorting works correctly	P1
PC-010	Apply fabric filter (Soft Cotton, Linen Cotton, Handloom Cotton)	Filtered results accurate	P2
PC-011	Apply occasion filter (Daily Wear, Office Wear, Occasion Wear)	Filtered results accurate	P2
PC-012	Apply color filter	Products filtered by selected color	P2
PC-013	Apply multiple filters simultaneously	Results match all criteria	P1
PC-014	Clear all filters	Original unfiltered list restored	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
PC-015	Verify pagination or infinite scroll	Next page loads correctly	P1
PC-016	Verify product count displayed	Accurate count shown	P2
PC-017	Verify "Out of Stock" badge on unavailable items	Badge visible, add to cart disabled	P1
PC-018	Verify quick view functionality	Modal opens with key details	P2

5.3 Product Details Page (55 Test Cases)

Table			
TC ID	Scenario	Expected Result	Priority
PDP-001	Open any product from catalog	PDP loads with all images, details	P1
PDP-002	Verify product image gallery/zoom	High-res images load, zoom works	P1
PDP-003	Verify size selection (XS to 10XL)	Selected size highlighted	P1
PDP-004	Verify size chart popup/modal	Accurate measurements displayed	P1
PDP-005	Verify "Different sizes for tops and bottoms" option	Size selectors for both appear	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
PDP-006	Verify fabric details (Soft Cotton, Linen Cotton, etc.)	Correct fabric info shown	P2
PDP-007	Verify product description and care instructions	Content visible and accurate	P2
PDP-008	Verify MRP and discounted price display	Prices formatted correctly (₹)	P1
PDP-009	Verify "Add to Cart" button	Item added, cart count updates	P1
PDP-010	Verify "Add to Wishlist" (logged in)	Item saved to wishlist	P2
PDP-011	Verify "Add to Wishlist" (guest)	Prompts login	P2
PDP-012	Verify stock availability message	"In Stock" / "Out of Stock" accurate	P1
PDP-013	Verify customer reviews and ratings	Reviews load, average rating shown	P2
PDP-014	Verify related products / "You may also like"	Recommendations displayed	P2
PDP-015	Verify breadcrumb navigation	Path: Home > Category > Product	P2

5.4 Cart & Checkout (50 Test Cases)

Table

Test Plan Report

TC ID	Scenario	Expected Result	Priority
CC-001	Add single item to cart	Cart updates, subtotal correct	P1
CC-002	Add multiple items to cart	All items visible, quantities correct	P1
CC-003	Update item quantity in cart	Subtotal recalculates	P1
CC-004	Remove item from cart	Item removed, total updates	P1
CC-005	Apply valid coupon code	Discount applied, total reduced	P1
CC-006	Apply invalid/expired coupon code	Error message displayed	P1
CC-007	Verify free delivery threshold (₹699+)	Delivery charge ₹0 if eligible	P1
CC-008	Verify delivery charge below ₹699	Correct charge displayed	P1
CC-009	Proceed to checkout (logged in)	Address selection page loads	P1
CC-010	Proceed to checkout (guest)	Guest checkout or login prompt	P1
CC-011	Add new delivery address	Address saved and selectable	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
CC-012	Edit existing delivery address	Changes saved	P1
CC-013	Select COD payment method	COD option available, order placed	P1
CC-014	Select UPI payment	UPI flow initiates	P1
CC-015	Select Credit/Debit Card	Card form validates correctly	P1
CC-016	Select Net Banking	Bank list loads, selection works	P1
CC-017	Select Wallet (PhonePe, PayZap, etc.)	Wallet selection and payment works	P1
CC-018	Select EMI	EMI options displayed	P2
CC-019	Verify order summary before payment	Items, quantities, prices accurate	P1
CC-020	Place order successfully	Order confirmation page with order ID	P1
CC-021	Verify order confirmation email/SMS	Notification received	P1

5.5 Payment Gateway (35 Test Cases)

Table

Test Plan Report

TC ID	Scenario	Expected Result	Priority
PG-001	Successful payment via UPI	Payment confirmed, order placed	P1
PG-002	Successful payment via Card	Payment confirmed, order placed	P1
PG-003	Successful payment via Net Banking	Payment confirmed, order placed	P1
PG-004	Successful COD order	Order placed without prepayment	P1
PG-005	Payment failure simulation	Order not placed, error shown	P1
PG-006	Payment timeout handling	Graceful error, cart preserved	P1
PG-007	Verify SSL certificate on payment page	HTTPS active, padlock visible	P1
PG-008	Verify no sensitive data in URL	Card/UPI details not in query params	P1
PG-009	Verify PCI-DSS compliance indicators	Secure payment iframe/form	P1
PG-010	Double-click prevention on "Pay Now"	Single transaction only	P1
PG-011	Verify refund to original payment method	Prepaid orders refunded correctly	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
PG-012	Verify COD refund via UPI	UPI refund processed	P1

5.6 User Account (40 Test Cases)

Table

TC ID	Scenario	Expected Result	Priority
UA-001	Register with valid email/phone	Account created, verification sent	P1
UA-002	Register with existing email	Error: Account already exists	P1
UA-003	Login with valid credentials	Dashboard loads	P1
UA-004	Login with invalid password	Error message displayed	P1
UA-005	Forgot password flow	Reset link sent, password updated	P1
UA-006	Update profile information	Changes saved successfully	P2
UA-007	Add multiple saved addresses	All addresses listed	P1
UA-008	Set default address	Default flag updated	P2

Test Plan Report

TC ID	Scenario	Expected Result	Priority
UA-009	View order history	Past orders listed with status	P1
UA-010	View order details	Items, tracking, invoice accessible	P1
UA-011	Download invoice	PDF invoice downloads	P2
UA-012	Manage wishlist	Add/remove items	P2
UA-013	Logout	Session terminated, redirect to home	P1

5.7 Order Management & Returns (30 Test Cases)

Table

TC ID	Scenario	Expected Result	Priority
OM-001	Track order status	Current status displayed accurately	P1
OM-002	Cancel order before packing	Cancellation successful, full refund	P1
OM-003	Cancel partially packed order	Eligible items cancelled	P2
OM-004	Request return within 7 days	Return request raised	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
OM-005	Request exchange for different size	Exchange request raised	P1
OM-006	Return pickup scheduling	Pickup arranged within 5-7 days	P1
OM-007	Return quality check pass	Refund/exchange processed	P1
OM-008	Return quality check fail	Partial refund or rejection	P1
OM-009	Refund timeline verification	Refund reflects per payment method	P1
OM-010	Verify Fair Usage Policy warning	Alert for excessive returns	P2
OM-011	Failed pickup (3 attempts)	Status updated, new request allowed	P2

5.8 Search & Filter (40 Test Cases)

Table

TC ID	Scenario	Expected Result	Priority
SF-001	Search by product name	Relevant results displayed	P1
SF-002	Search by partial keyword	Autocomplete suggestions appear	P2
SF-003	Search with no results	"No results found" message	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
SF-004	Filter by size XS	Only XS products shown	P1
SF-005	Filter by size 10XL	Plus-size products shown	P1
SF-006	Filter by price range	Products within range displayed	P1
SF-007	Filter by fabric: Soft Cotton	Correct fabric products shown	P2
SF-008	Filter by occasion: Office Wear	Relevant products shown	P2
SF-009	Sort by Price: Low to High	Correct ascending order	P1
SF-010	Sort by Price: High to Low	Correct descending order	P1
SF-011	Sort by Newest Arrivals	Sunday launches prioritized	P2

5.9 Mobile Responsiveness (35 Test Cases)

Table			
TC ID	Scenario	Expected Result	Priority
MR-001	Homepage on iPhone 14 (Safari)	Layout renders correctly	P1
MR-002	Homepage on Android Chrome	Layout renders correctly	P1
MR-003	Hamburger menu navigation	All categories accessible	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
MR-004	Touch targets minimum 44x44px	No overlapping buttons	P1
MR-005	Product image swipe gallery	Swipe left/right works	P1
MR-006	Add to cart on mobile	Button accessible, feedback shown	P1
MR-007	Checkout form on mobile	Fields usable, keyboard appropriate	P1
MR-008	Payment page on mobile	Secure form renders correctly	P1
MR-009	Tablet portrait mode	Grid adapts to 2 columns	P2
MR-010	Tablet landscape mode	Grid adapts to 3-4 columns	P2

5.10 Performance Testing (25 Test Cases)

Table			
TC ID	Scenario	Expected Result	Priority
PT-001	Homepage load time	< 3 seconds	P1
PT-002	Product catalog page load	< 3 seconds	P1
PT-003	Product detail page load	< 2.5 seconds	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
PT-004	Cart page load	< 2 seconds	P1
PT-005	Checkout page load	< 3 seconds	P1
PT-006	API response time (product list)	< 500ms	P1
PT-007	Image optimization (WebP/AVIF)	Images served in modern format	P2
PT-008	Lazy loading of below-fold images	Images load on scroll	P2
PT-009	Load test: 500 concurrent users	Site remains responsive	P2
PT-010	Stress test: 2000 concurrent users	Graceful degradation	P2

5.11 Security Testing (30 Test Cases)

Table

TC ID	Scenario	Expected Result	Priority
SEC-001	SQL injection on search field	Input sanitized, no error exposure	P1
SEC-002	XSS attack on review submission	Script tags neutralized	P1
SEC-003	Verify HTTPS on all pages	No mixed content warnings	P1
SEC-004	Session timeout after inactivity	Auto-logout after 30 min	P1

Test Plan Report

TC ID	Scenario	Expected Result	Priority
SEC-005	Brute force login protection	Account lockout after 5 attempts	P1
SEC-006	Sensitive data in browser storage	No passwords/cards in localStorage	P1
SEC-007	CSRF token validation	Form submissions require valid token	P1
SEC-008	Rate limiting on APIs	429 response after threshold	P2
SEC-009	Secure cookie flags	HttpOnly, Secure, SameSite set	P1
SEC-010	Payment data never stored locally	No card details in logs/storage	P1

5.12 SEO & Accessibility (20 Test Cases)

Table			
TC ID	Scenario	Expected Result	Priority
SEO-001	Meta title on homepage	"Aramya Premium Cotton Kurtas & Ethnic Wear for Women"	P2
SEO-002	Meta description present	Relevant description on all pages	P2
SEO-003	Canonical URLs	No duplicate content issues	P2

Test Plan Report

TC ID	Scenario	Expected Result	Priority
SEO-004	Product schema markup	Structured data valid	P2
SEO-005	Sitemap.xml accessible	Lists all important pages	P2
ACC-001	Alt text on product images	Descriptive alt text present	P1
ACC-002	Keyboard navigation	All interactive elements reachable	P1
ACC-003	Color contrast ratio	WCAG AA standard (4.5:1)	P1
ACC-004	Screen reader compatibility	ARIA labels on dynamic content	P2
ACC-005	Focus indicators visible	Clear focus rings on all elements	P2

Test Plan Report

6. TEST DATA REQUIREMENTS

Table

Data Type	Details	Source
Valid user accounts	5 registered accounts with order history	Created in staging
Guest checkout data	Valid addresses across India	Synthetic data
Payment test cards	Razorpay/Stripe test card numbers	Payment provider sandbox
UPI test IDs	Test VPA handles	Payment provider sandbox
Product inventory	Mix of in-stock and out-of-stock items	Staging DB
Coupon codes	Valid, expired, and invalid codes	Marketing team
Size variants	Products with XS through 10XL	Staging catalog

Test Plan Report

7. DEFECT SEVERITY DEFINITIONS

Table

Severity	Definition	Example
Critical	Blocks core functionality, no workaround	Cannot complete checkout
High	Major feature broken, workaround exists	Payment failure on UPI only
Medium	Minor feature issue, low impact	Sorting by price incorrect
Low	Cosmetic or enhancement	Misaligned button on tablet
Trivial	Typos, minor UI glitches	Spelling error in footer

Test Plan Report

8. RISKS & MITIGATION

Table		
Risk	Impact	Mitigation
Payment gateway sandbox unavailable	High	Coordinate with provider early
Staging data not representative	Medium	Refresh staging with production-like data
Third-party CDN/image service down	Medium	Test with fallback images
High traffic during festive season	High	Load test at 3x expected traffic
Size chart inconsistencies	Medium	Validate all size charts manually

Test Plan Report

9. ROLES & RESPONSIBILITIES

Table

Role	Responsibility
QA Lead	Test plan approval, defect triage, reporting
Functional QA	Execute manual test cases, log defects
Automation Engineer	Build/maintain Selenium/Playwright suites
Performance Engineer	JMeter scripts, load test execution
Security Analyst	OWASP scan, penetration testing
DevOps	Environment provisioning, CI/CD pipeline

Test Plan Report

10. DELIVERABLES

1. Test Plan Document (this document)
2. Test Cases (Excel/TestRail — 465 total)
3. Test Execution Report (daily/weekly)
4. Defect Report (JIRA/Bugzilla)
5. Performance Benchmark Report
6. Security Assessment Report
7. Final Sign-off Certificate

Test Plan Report

11. APPROVALS

Table

Role	Name	Signature	Date
QA Lead			
Product Manager			
Engineering Lead			
Business Owner
